

What's new in PCR version 8

New features in PCR version 8:

Warfarin high risk medicine care risk assessment

A high risk medicine care risk assessment can now be created for Warfarin.

Gluten-free support tool assessment

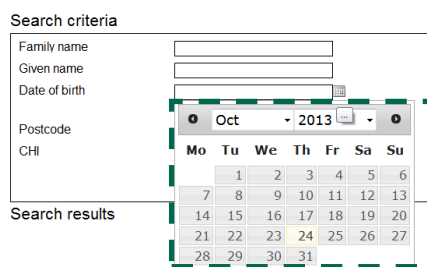

A new support tool, and associated reports, to assist with managing patients that are following a Gluten-free diet.

Other Changes

- After successful authentication a user can select a URL link that directs to the PCR login page:

- Date picker control on all date fields:

- Updated report: complex dispensing patient = "yes" (Sub-types now shown in report view):

Complex dispensing patient set to Yes				Number of records on report: 1				
Patient name	Date of birth	CHI	Post code	Monitored dosage system required by pharmacist	Monitored dosage system requested	Other adherence support required	Special monitoring and feedback required	Instalment dispensing requested by prescriber
Mr Johnathan Smith	03-Feb-2001	0102031231	EH54 7EZ	Yes	-	Yes	-	-
