

Guidance on correct printing of barcodes on CP2 prescription forms

Alignment Check

DOB/CHI No. [Redacted] Dispensing Pack Sizes

Male Female

Registration Withdrawal

Quant: 100ml Linctus BP S/P
Take ONE 5ml spoonful
FOUR TO FOUR times a day.

Signature of Pharmacist: [Signature] Date: 03.02.2010

85089541927 01820182

The barcode is printed too high on the CP2 prescription form. Practitioner Services will, therefore, fail to capture the barcode, which will result in electronic processing not being possible.

Alignment Check

DOB/CHI No. [Redacted] Dispensing Pack Sizes

Male Female

Registration Withdrawal

Quant: 100ml Linctus BP S/P
Take ONE three times
when required

Signature of Pharmacist: [Signature] Date: [Redacted]

85083995011 01710171

The barcode is printed too far to the right on the CP2 prescription form. Practitioner Services will, therefore, fail to capture the barcode, which will result in electronic processing not being possible.

Good Example

DOB/CHI No. [Redacted] Dispensing Pack Sizes

Male Female

Registration Withdrawal

Quant: 90 Folic acid 100mcg
tablets
Take ONE daily

Signature of Pharmacist: [Signature] Date: 04.02.2010

85084011915 01710171

The barcode is printed in the correct position on this CP2 prescription form.
