

Pharmacy Communication (SBAR)

For information only

For the attention of: Dr Randall
Organisation: The Inverclyde Surgery

Requested by:	Jane Smith
Organisation:	1234 - Pharmacy
Date Created:	08/05/2017

Patient Details

Name:	Angela Smith
CHI:	777777777
Core Service Registration:	

Situation

Patient supplied with trimethoprim 200mg BD 3 days under PGD.

Background

Patient attended Saturday 6th May 10am with symptoms suggestive of uncomplicated UTI (dysuria, frequency and urgency). She had tried self management for 2 days with no improvement in symptoms.

Assessment

I undertook consultation and assessment according to local protocol and supplied a 3-day course of trimethoprim under the PGD.

Patient has been advised to contact practice if symptoms do not resolve or systemic symptoms develop.

Recommendation

Note for patient record.

SPACE FOR REPLY

Action: [Yes] [No] (If yes, outline response. If no, please state the reason)

Authorised by:

Note to recipient: reply can be hand-written (or annotated using Adobe Reader) in the space for reply to be faxed or emailed. Alternatively the reply to the pharmacy can be made separately, e.g., directly via email.
