

**New  
resource for  
Community  
Pharmacy  
teams!**

### Common Clinical Conditions: Sore throats

This is the first in a series of resources designed to support discussion in pharmacy teams by focusing on a particular clinical area, but it can be used for self-directed learning too! The aim of this pilot resource is to give pharmacy teams the confidence to assess and manage sore throats in patient facing roles utilising clinical assessment, consultation and prescribing skills as necessary.

Good team  
building  
exercise

Informative  
and easy to  
use

Everybody was  
able to input into  
the discussion

Looking  
forward to  
the next  
module!
