

FREE Home Fire Safety Visit

Scottish Fire and Rescue Service Leaflets/HFSV Postcards

Home Fire Safety Visits play a crucial role in preventing fire-related and other home safety incidents within the home and safeguarding lives and property. These visits, conducted by SFRS, aim to educate and empower individuals with the knowledge and resources necessary to identify and mitigate hazards within their homes. By raising awareness, providing guidance, and promoting proactive measures, home fire safety visits contribute significantly to the overall safety and well-being of communities.

Home fire safety visits are a valuable initiative aimed at promoting fire prevention, risk reduction, and community safety, by engaging residents and providing them with fire and home safety awareness

Please look out for a SMALL number of postcards being sent out to be used selectively, these can be attached to (preferably stapled on outside) your prescription bags. The postcards are a way of getting information and contact details across to elderly (60+) and vulnerable people within your communities, so SFRS can provide valuable home safety information and possible home visits across Aberdeenshire and Moray areas
