

The Community Pharmacy Palliative Care Network

Within NHS Lanarkshire there are 24 community pharmacies participating in the above network to provide additional palliative care support to community healthcare professionals, patients and carers. The service includes:

- ♦ Retaining a stock of medications that may be required for palliative care.
- ♦ Providing advice and support on palliative care medications to patients, carers and other community healthcare professionals.
- ♦ Signposting patients and carers to other services and organisations where appropriate.

In most circumstances prescriptions for palliative care medications should be taken to the patient's usual community pharmacy. If the pharmacy is unable to dispense the medication within a reasonable time then the nearest network pharmacy should be contacted to arrange prompt supply.

Access to palliative care medicines out-of-hours (OOH)

Several of the network pharmacies have late night opening and are open on Sundays. In the event that medicines are urgently required when network pharmacies are closed contact:

NHS Lanarkshire out-of-hours service.

Any difficulties experienced with the network or with access to palliative care medicines in the community should be reported to:

Linda Johnstone
