## NHS Scotland Seasonal Flu Programme 2023/24: Vaccine Ordering Open

Dear Pharmacy,

### Ordering is now open.

Flu vaccines for the NHS Scotland Seasonal Flu Programme are now available to order from AAH Pharmaceuticals.

The available vaccines are as follows:

AAH Link Code	Product Description	Pack Size	Cohort
AQI0017S	ADJUVANTED QUADRIVALENT INFLUENZA VACCINE	10	Over-65s
QIV0008Y	CELL BASED QUADRIVALENT INFLUENZA VACCINE	10	Under-65s

The above vaccines are available for next day delivery.

To place an order for vaccines, sign in to [AAH.co.uk](https://AAH.co.uk)

### Important Information

#### Vaccine quotas

Quotas are in place for the flu programme. Quotas for your pharmacy have been set by your health board. If you have any queries relating to the quota set for you, please contact your health board directly.

#### Ordering the correct quantity

Vaccines are available in packs of 10. On the ordering platform, please read the vaccine information carefully and order the number of packs required, not the number of doses. For example, if you want to request a delivery of 50 vaccines an order should be placed for 5 packs of 10.

### **Patient Information Leaflets**

Patient Information Leaflets (PILs) for aQIV and QIVc will be supplied in pads of 10 leaflets and will automatically be added to your vaccine order.

### **Egg-free vaccine**

The cell-based quadrivalent vaccine (QIVc) does not contain egg.

### **Further Support**

For further assistance regarding the ordering and delivery arrangements, please contact AAH Customer Care via Live Chat on AAH.co.uk. For questions on the maximum order quantity (quota) set for your site, please contact your health board.
