 Follow the instructions in the yellow help box to find (greate your client and havin recording the 	>> OPTIONS	Help Steps:
find/create your client and begin recording the transaction. Site, date and time will be pre-populated. To create/find the client you will need to select their gender (<i>male/female/trans</i>) and then enter their client ID code. The client ID code is the 1 st letter of their forename, surname and then the 4 th letter of their surname, followed by their full date of birth. If there is no 4 th initial in the surname then replace this with a *.	1. Transaction Site: Addiction Services LBH (KY11 8JH) 2. Transaction Date:	 Select a site where the transaction was done at. Select the date the transaction was done on. Enter the time the transaction was done. Please select a gender then enter in the client id code. Which is the 1st initial of their first name, 1st initial of their sumame. 4th initial of their sumame is a ' can be used followed by date of birth (dd/mm/yyyy) Then click on find or new.
 If the client wishes to remain anonymous then you must select their gender before selecting 'anonymous'. You are then required to enter your name and a reason. Please note that yellow stars indicate a field where information MUST be completed in order to 	≫ DETAILS ☆ Your Name: ☆ Reason: USED 0 OF 500 CHARACTERS	 Notes Required fields are marked with 1. Enter in your full name. 2. Enter in a reason why the client wishes to be anonymous.
progress with the IEP claim. The reason must also be a minimum of 10 characters in order to progress.	» OPTIONS

Screen 1 – Client details

The next screenshots will show the information required for a new client. NEO may prompt for the information to be updated for returning clients. Remember that a yellow star denotes a field where information must be recorded.

- Details will be pre-filled from when the client ID was entered. Please check that these match.
- For postal district, type in the first part of the postcode and then select the correct area from a dropdown list.
- Confirm which substance(s) the client is currently using, route of administration and how often they are being used. This information should be updated regularly to ensure the correct equipment is being provided.

The available options can be seen below:

Clients accessing the IEP service should be given overdose related advice, offered overdose awareness training and/or a naloxone kit.

When advice is provided then **Overdose related advice** can be selected.

If the client declines to be given overdose awareness training and/or a naloxone kit then **Naloxone offered and refused** should be selected. The **Save** function can then be selected to complete the transaction.

When a client wishes to receive overdose awareness training and/or a naloxone kit the **Save & go to Naloxone** option can be selected. This option will save the IEP transaction and take you to the naloxone module.
