

PHOENIX for people facing severe and multiple disadvantage
Poster (v1, 20 September 2024)

IRAS ID: 345246

**University of Edinburgh
Centre for Homelessness and Inclusion Health
Research study**

**Are you homeless or in temp accommodation?
Have previously had an overdose (blackout) with street drugs?
Ever been involved with the police?**

**If the answer is yes to all of the above, we would like you to
participate in a Scotland-wide research study**

**The study will find out whether NHS Pharmacist prescribers +
Alcohol & Drugs Action can improve your health**

**For more details contact:
Alcohol & Drugs Action 01224 594 700 and ask to be
considered for the PHOENIX study
or
Phone Richard Lowrie (University of Edinburgh)
on: 07971 827565**

**As a thank you, we will give you a £20 supermarket voucher at
the start and at the end of the study**

What we mean by ‘homeless or temp accommodation’: living rough / night shelter/
homeless or temporary accommodation / women’s shelter / residential care /
supported accommodation / insecure accommodation / threat of eviction / living under
threat of violence / temporary or unfit housing / overcrowding / sofa-surfing

What we mean by ‘overdosing / blackout on street drugs’: loss of consciousness
/ had Naloxone administered / attended A&E / admitted to hospital / needed an
ambulance due to drug use

What we mean by ‘involvement with the police’: charged, cautioned, prison
sentence, Drug Treatment & Testing Order (DTTO), stopped and questioned by police.
