

Emojimicrobials

WAAW 2022

Background: To spread greater antimicrobial awareness during World Antimicrobial Awareness Week (WAAW). This quiz contains a host of vulnerable antimicrobial agents, in emoji form, they urgently need our help.

Mission: To decipher the emoji puzzles and figure out which antimicrobial is hiding within. Like a master zookeeper, you must handle your charges with care and protect them from the oncoming threat of antimicrobial resistance.

Basic Training:     **Penciclovir** (*Pen-cycle-low-virus*)

1.    
2.     
3.     
4.      
5.    
6.    
7.      
8.     
9.     
10.    
11.     
12.     
13.    
14.      
15.        
16.      
17.     
18.   
19.    

1. _____
