

Help Shape Sexual Health Services for Young People across NHS Highland

The Sexual Health Needs Assessment for Young People in Argyll & Bute and North Highland is now moving into its third phase.

Over recent months, young people have shared their experiences, views, and priorities around sexual health and wellbeing as part of our Sexual Health Needs Assessment - these findings and insights are attached.

We are now seeking the perspectives of **professionals who work with, support, or provide services to young people**. Your experience and knowledge are vital in helping us understand current provision, identify gaps and opportunities, and inform future recommendations.

Please take a few minutes to complete our short survey by **20 September**.

QR Code:

At the end of the survey, you will also have the opportunity to register your interest in participating in a follow-up focus group, where we will explore the findings in more detail and discuss future priorities for sexual health services and support.

Thank you for helping us build a comprehensive picture of the sexual health needs of young people across our communities.
